

**5-9 YEAR OLDS**

# **JUNE HOLIDAY CAMP**

**4-DAY STEAM PROGRAMME**

**JUNE 22-25  
TUE-FRI**

**10AM - 12PM**  
snacks included!

**STEAM is an educational approach to learning that uses Science, Technology, Engineering, Arts, and Mathematics as access points for guiding children Inquiry, Dialogue, and Critical thinking.**

**STEAM triggers Problem-solving, Creativity, and Analytical thinking - critical skills that set the foundation for primary education and continuous learning.**

**Expose your child to EdLab's STEAM Programme now!**

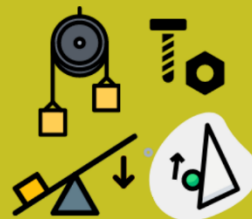

## **CONDUCTED BY EXPERIENCED EDUCATORS**

**STEAM WITH US THROUGH FUN  
EXPERIMENTS AND HANDS-ON  
ACTIVITIES!**

### **LEARNING OUTCOMES:**

- Exposure to real-world problem-solving (bring theories to life)
- Apply steam to different disciplines and scenarios
- Discover new interests and talents through inquiry and problem-solving
- Develop critical thinking, creativity, collaboration and communication skills

Simple machines are basic tools that help us do work easily!

Compound machines are made of 1 or more simple machines. Like this bicycle!

**INVESTIGATE SIMPLE AND  
COMPOUND MACHINES IN  
EVERYDAY LIFE**

APPLY ENGINEERING CONCEPTS  
THROUGH HANDS-ON ACTIVITIES

NURTURE PERSEVERANCE  
THROUGH EXPERIMENTATION  
AND TRIAL AND ERROR

WORK AS A TEAM TO COMPLETE  
STEAM MISSIONS
