Health Screening

SAFRA exclusives

Early detection saves lives. Good health allows us to enjoy life and live well together with our loved ones. Make the time for yours and your family's health screening. Not only will it assess your overall wellbeing, a screening can detect potential lethal disease or health risks before they happen. This attempt and aim to nip things in the bud will increase the chances of survival and reduce costs involved in treatment.

Quantum has carefully crafted 3 packages catering to general health screening and from general health screening to more in-depth investigations with higher modalities and comprehensive tests. Fully Facilitated with X-ray, ultrasound and MRI machines, we offer a one-stop convenience for all tests and exams to be completed seamlessly within 1 to 2 hours. Our dedicated and passionate team of doctors, radiographers and support staff are here to offer personable and quality care.
